

Techmark's Air Handlers

for mushroom producers

- Easier and more thorough cleaning access
- Insulated panels for energy efficiency
- Pre-piped heating and cooling manifolds
- Low leak aluminum dampers
- Thermal break aluminum frame

Each unit is built to order and to your specifications.

Call us to discuss your Air Handling needs! 517.322.0250

Built for the mushroom industry by industry experts. Techmark's Air Handlers are custom built, to order, and with your specific project requirements. We engineer, build, and perform final on-site testing to ensure proper performance.

Our commitment to the industry is that every piece of equipment we design will meet your needs or we'll make it right.
